DETAILED ACTION

Allowable Subject Matter

Claims 1-4, 6-37 and 41-59 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The coma-like wavefront aberration is an equivalent of, a wavefront aberration described by any one of the third order, fifth order, seventh order Zernike coma-like terms, and combinations thereof in proposed OSA Standard Zernike Polynomials is not taught or suggested in the prior art.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5 and 39 (and dependent claim 40) are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims do not distinctly claim the subject matter which the applicant regards as the invention, since they do not further limit the Polynomial recitations of their base claims (see objection below).

Claim Objections

Claims 5 and 39 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The limitations of these claims are found in the base independent claims (claim 1 for dependent claim 5; claim 33 for dependent claim 39) and therefore, do not further limit these claims.

Claims 5 and 39 should be cancelled.

The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

There is no claim 38, therefore, misnumbered claims 39-59 should be renumbered 38-58 with the appropriate dependencies.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
